

Flower Profile Card

The signature component of Vriksha — shown 35 times across the gallery grid, one per seed bucket. Collectible, specimen-card styling: a line-illustration hero on a stage-tinted wash, editorial type, and a six-dot progress timeline.

Line Illustration Set

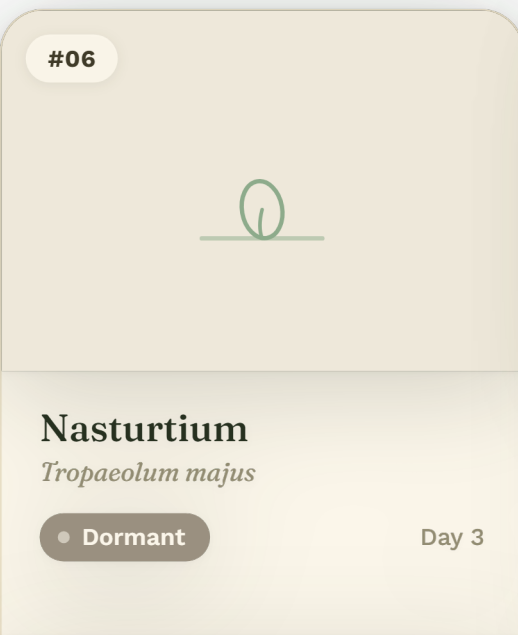

Single-weight strokes in moss green, one per growth stage.

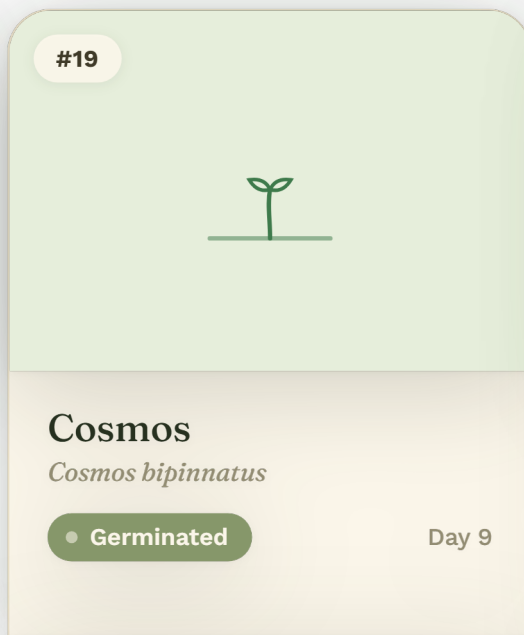

Three States

Dormant sits faint and quiet; germinated turns fresh green; flowering warms into terracotta. Hover any card — it lifts, deepens shadow, and the border warms toward clay. Tap/press settles it back down slightly.

DORMANT

GERMINATED

FLOWERING
